The Ministry of Interior.
(Website Security Policy)**

MEASURES AND WAYS TO MAINTAIN STABILITY, SECURE WEB SITE.

To maintain stability, secure Web site. To protect the user's data from being compromised or intrusion from an adversary or who do not have permission to access the data. Marketing Organization The Interior Ministry requires measures to maintain a stable, secure Web site by using standard data security technology Secured Socket Layer (SSL) is digits.

This is to prevent any from entering a confidential personal information of the user without authority. So there are some preliminary suggestions about maintaining stability, secure Web site. As follows:

1. check the Web site before you access the services in order to prevent spoofing Web site.
2. install a virus-detection program, and check the above mentioned programs up to date.
